Skills

- Java | Dart | Kotlin | Android SDK | Android OS | SQLite | Firebase | iOS | Flutter | XCode | Android Studio | Visual Studio | FCM | Git
- Github | GitLab | BitBucket| App Store Connect | Google Play Console | Unit Testing | Bloc | MVVM | MVC | MVP | Project Management|
- Rest APIs | JSON | XML | GraphQL | Software Development | Sockets | English and Hindi – *All professional proficiency or above*

Experience

Software Engineer (Mobile) | LogiNext Solutions | *Mumbai, India (Remote)* **08/2023 - Present**

- **Developed New Features:** Orchestrated the development lifecycle of critical features like **order transfer mechanisms** and UI/UX improvements, from conception to execution, ensuring **efficient** translation of requirements into **functional** and **scalable code.**

- **Managed Codebase Migration:** Worked on the seamless transition of the existing Rider Application codebase from **Java** to **Kotlin**, leveraging expertise in both languages, and ensuring **code integrity** and enhanced functionality post-migration.

- **Contributed to UI/UX Enhancements:** Collaborated closely with **design teams**, employing a deep understanding of **UI/UX** principles and **front-end technologies** to implement intuitive and visually appealing enhancements for the Rider Application, thereby elevating user experience.

- **Optimized Battery Efficiency:** Spearheaded the implementation of battery optimization techniques, utilizing deep performance profiling and strategic code alterations to reduce resource consumption and enhance battery life for the Rider Application.

Mobile Application Developer | Vitel Global | *Hyderabad, India (Remote)* **12/2022 - 08/2023**

- Developed **HRMS** and **Payroll** app using **Flutter** on **Bloc** used **Firebase** for Implementing user tracking, **Analytics** and **Push Notifications**

- Contributed with **Backend** team for efficient working of Leave, Payslips and PF modules in the HRMS and Payroll App.

- Developed **Business Card Scanner** and **Govt ID Scanner** Application Using **Google AI vision** and **ML Kit.**

- Implemented syncing mechanism with **Cloud** and Local Storage using **SQLite** in Flutter for Efficiently storing of the card and utilizing Storage in the App.

Software Developer | Techouts | *Hyderabad, India (Remote)* **10/2022 - 12/2022**

- Worked with Tata Digital and Contributed in **Tata Neu App** for Personal Loan Module

- Designed and Developed Customer Onboarding Screen for Personal loan.

- Integrated various Validation for PAN and other personal details and Improved existing code for better readability

Software Engineer | CBNITS | *Kolkata, India (Remote)* **09/2021 - 09/2022**

- Worked on **eZRx** mobile App for **Zuellig Pharma,** contributed in **Migration** from **Provider State Management** with **Bloc** for Improving **Code readability** and **Performance.**

- *Adapted with Web Technology (ReactJS): During the web platform's overhaul, amidst a shortage of web developers, I self-initiated learning **React JS** to bolster the Frontend team, aiding in revamping UI/UX and implementing new features.*

- Implementing Analytics using **Countly** for tracking how user uses the mobile App and implemented **Qualtrics** for taking survey within the App

- Integrated multiple third-party plugins for improving the app functionality like **SSO** and **Biometric** Login

Mobile Application Developer | Einix Infotech | *Sirsa, Haryana, India* **06/2021 - 08/2021**

- **Panj Tara:** Online Food Delivery Application using Flutter with **Live Tracking** using **Socket.io** and Push Notification using **FCM**
- **Migrated Existing Products:** Migrated existing Apps built on **Native Android** to **Flutter** for iOS and **Web Platform** leveraging Flutter Framework

Android Developer (Part Time)   *Sirsa, Haryana, India*   **12/2020 - 06/2021**

- **Online Exam App:** Developed and engineered an innovative Android application focused on answering Multiple Choice Questions (MCQs) and various queries, integrating advanced functionalities such as **face tracking** and **video recording.**
- Implemented robust **cloud synchronization** capabilities utilizing **background services**, ensuring seamless data transfer and storage when connected to stable internet while also employing **local SQLite databases** to store data offline, ensuring continuity and preserving user data integrity.

Education

Bachelor of Technology   **Ch. Devi Lal State Institute of Engineering and Technology**   *Sirsa, Haryana, India*   **09/2019 - 05/2022**

- Degree in Computer Science and Engineering

Projects

- **Wow Talent:** Orchestrated the development of a cutting-edge Video Sharing mobile application using Flutter and Bloc architecture, integrating Firebase Cloud Firestore for storing user details and Firebase Storage to efficiently manage video storage.

- **Gate Architecture Study Notes:** A Flutter app powered by Firebase and REST API. Access dynamic study material like images, text, videos, and PDFs. Freemium model with free and premium content. Android & iOS compatible.

- **MCS Live Guru:** A Flutter app leveraging Firebase and REST API. Purchase courses, browse study materials, join live classes, and stay updated on national and international current affairs.

Mentorship

- **Tech Industry Transition Mentor (05/2022 - Present):** Provided expert guidance and mentorship to professionals transitioning from non-tech backgrounds into the tech industry. Developed personalized strategies and action plans tailored to individual skill sets, facilitating successful integration into tech roles.

Personal Interests and Hobbies

- **Continuous Learning in Tech:** Actively engage in self-study and exploration of emerging technologies, staying updated with industry trends and advancements.

- **Personal and Professional Growth:** Devote time to self-improvement endeavors, including personal development seminars, online courses, and workshops focused on career enhancement.

- **Fitness and Wellness:** Maintain a regular fitness routine, demonstrating dedication to health and well-being through workouts and healthy lifestyle practices.
